Are the 6 "strip lots" shown on the attached Assessor's Map Book Page 34 (4107-034-014, -015, -016, -022, -019, and -020), inside the property owners' fences? We need a definitive answer, which may mean asking a civil engineer for verification of the answer. (For clarification, in case the map is not readable to you, each "strip lot" is shown as being 20 ft deep from Sepulveda.)

I've also attached Assessor's Map Book Page 35, which shows the block of Sepulveda further to the south with similar "strip lots." Based upon the street view, it seems to me that these "strip lots" are inside the property owners' fences. What does that imply for the block to the north?

This section of Sepulveda from 83rd to 84th is the next section for sidewalk repairs and ficus removals. In connection with that, we were just getting ready to go ask the property owners to donate their strip lots. Of course, that's a dumb question we won't ask if the "strip lots" in question are inside the back fence.

Can you help us answer this question? Time is of the essence.

Thanks Marc.
